

AUTOMATA

FOCUS AREA 1 ***DIGITISING ARCHAEOLOGICAL FINDS***

Transforming the documentation
and analysis of cultural heritage objects

www.automata-ecch.eu

AUTOMATA is part of the
ECCCH Cultural Heritage Cloud initiative,
managed by the **ECHOES** project.

AUTOMATA

(AUTOMated enriched digitisation
of Archaeological liThics and cerAMics)

Using AI-augmented robotics and sensors, the EU-funded **AUTOMATA** project (2024–2029) will create 3D models enriched with archaeometry data, providing a practical and cost-effective solution for digitisation of archaeological objects
